Title IV funds are earned in a prorated manner on a per diem clock hours basis up to the 60% point in the payment period. Title IV aid is viewed as 100% earned after that point in time. The school is required to determine the earned and unearned Title IV aid as of the date the student ceased attendance based on the amount of time the student was scheduled to be in attendance. In accordance with federal regulations, when Title IV financial aid is involved, the calculated amount of the R2 T4 Funds is returned in the following order: Unsubsidized Direct Loans, Subsidized Direct Loans, Direct PLUS loans followed by Pell Grants. The calculation steps are outlined in the following example:

Calculate the percentage of Title IV aid earned by the student. $175 \text{ Scheduled hours} = 38.9\%$ (% of scheduled hours within the payment period (450 hours)).

Calculate the dollar amount of Title IV aid earned by the future student. $38.9\% \times \$4547.50$ (Total of Title IV aid that could be disbursed) = \$1768.98 (amount of aid earned by the student)

If this amount is greater than the total Title IV aid disbursed for the payment period, a Post-Withdrawal Disbursement will be calculated; if the amount is less than the amount of Title IV aid disbursed, the difference will be returned to the Department of Education.

Post Withdrawal Disbursement

If a student earned more than was disbursed to him/her, the school may owe the student a post-withdrawal disbursement which must be paid as soon as possible but no later than 90 Days from the date the Institute determined the student withdrew for loans and no later than 45 days from the date the school determined the student withdrew for grants. The school is required to notify the borrower in writing within 30 days of the date it determined the student withdrew that he/she is eligible for a post-withdrawal disbursement of Title IV loan funds. However, if the student (or parent in the case of a PLUS loan) is eligible to receive a post-withdrawal disbursement of loan funds, the student or parent borrower must first confirm in writing whether he/she accepts/declines all or some of the loan funds offered as a post-withdrawal disbursement. A post-withdrawal disbursement of Federal grant funds does not require student acceptance or approval and the grant funds do not require student acceptance or approval and the grant funds may be applied directly to the student account in order to satisfy tuition and fees or to the student.

Retesting Cost

Retesting is considered as missing or failing a scheduled practical exam or written final exam. Retesting of Practical Evaluations is \$25.00. Retesting of Final Written Exams (after 2 scheduled opportunities per exam) is \$25.00.

Practical Evaluations

Practical Evaluations are monitored and evaluated by an instructor during Phase1, Phase2 and Phase 3 (if applicable). The student will receive a written evaluation that reflects areas of strengths and areas that need improvement. Students who meet the minimum requirements will be considered making improvements in basic skills until the next scheduled evaluation. The student will also receive monthly progress reports listing all the current hours, grades and applications.

Grading

Students are graded on formal instruction and practical work. Written tests are generally given on Friday after each textbook chapter. Comprehensive written finals are given at completion of all chapter tests; the minimum passing score on a written final is 70%. Students must pass a practical evaluation to advance through each phase of the program. Throughout the students course of study he/she is kept informed of his/her progress, including appearance and attitude.

Theory and academic grades and Practical evaluations are given as needed.

The grading scale is:

90%-100%

80%-89%

75%-79%

70%-74%

0%-69% Failing

Grading System

The following system is used to establish fair and equitable academic evaluations as a method of keeping students informed academic progress pertinent to the course of study. Theory and practical applications are sequentially introduced to students beginning with basics and progressing to the more advanced phases of study.

Typically a unit of theory is introduced weekly (some units require more than a week to adequately cover); the introduction may be through lecture, demonstration, audio-visual, hands on techniques etc. The process would include introduction, followed by oral review and finished by the completion of a written test. Students failing to achieve a minimum score of 70% must re-test. Test to be scheduled by the immediate supervisor, and achieve a minimum test score average of 70%.

Practical applications are integrated into the course from the beginning of the course studies. Practical applications are introduced through lecture, audio-visual, hands on demonstration, or printed material. The student performing the skill on a manikin, another student or client (once the student has achieved the required number of hours and performed the required number of services to demonstrate competency for clinic work) follows the introduction of practical application(s). A student must score a minimum 70% average on all practical applications. Practical applications are evaluated according to the written criteria based on state licensing and school requirements. Students are provided a copy of the written criteria for satisfactorily completing practical skills. Students receive practical grades for each practical unit of study; this grade is a culmination of all practical skills performed. Additionally, students must perform the number of required practical applications during the course of study.

Students meeting the criteria for both attendance (qualitative) and academic (quantitative) are considered making satisfactory progress and are considered in satisfactory progress until the next scheduled evaluation.

Students failing to meet minimum requirements will be placed on warning, during the warning period students are considered to be making satisfactory progress.

Students on an approved leave of absence retain the satisfactory progress status they were in on the day the approved leave began provided they return on the scheduled date of return. Students taking a temporary interruption during their course of study that were not in satisfactory progress at the beginning of the temporary interruption who return to school will be considered in unsatisfactory progress and must re-establish satisfactory progress within the first 30 days of enrollment. Temporary interruptions have no adverse effects on satisfactory progress. This is a clock hour course and courses incomplete; repetition and non-credit remedial courses have no effect on satisfactory progress

The school does not provide an on-campus program for drug or alcohol counseling, treatments or rehabilitation, but we will provide information about off-campus resources for such treatment.

Controlled Substances uses and Effect and Alcohol Effects:

Alcohol consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident. Low to moderate doses of alcohol also increase the incidence of a variety of aggressive acts, including spouse and child abuse. Moderate to high doses of alcohol cause marked impairment in higher mental functions, severely altering a person's ability to learn and remember information. Very high doses cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower doses of alcohol will produce the effects just described.

Repeated use of alcohol can lead to dependence. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations, and severe convulsions. Alcohol withdrawal can be life threatening. Long-term consumption of large quantities of alcohol, particularly when combined with poor nutrition can lead to permanent damage to vital organs such as the brain and the liver. Mothers who drink during pregnancy may give birth to infants with fetal alcohol syndrome. These infants have irreversible physical abnormalities and mental retardation. In addition, research indicates that children of alcoholic parents are at a greater risk than other youngsters of becoming alcoholics.

Satisfactory Academic Progress Policy (SAP)

The Satisfactory Academic Progress Policy is consistently applied to all students enrolled at the school. It is printed in the catalog to ensure that all students receive a copy prior to enrollment. The policy complies with the guidelines established by the National Accrediting Commission of Career Arts and Sciences (NACCAS) and the federal regulations established by the United States Department of Education.

Evaluation Periods

evaluation by midpoint in the course. Students are required to attend a minimum of 67% of the hours possible based on the

applicable attendance schedule in order to be considered maintaining satisfactory attendance progress. Evaluations are conducted at the end of each evaluation period to determine if the student has met the minimum requirements. The attendance percentage is determined by dividing the total hours accrued by the total number of hours scheduled. At the end of each evaluation period, the school will determine if the student has maintained at least 67% cumulative attendance since the beginning of the course which indicates that, given the same attendance rate, the student will graduate within the maximum time frame

Maximum Timeframe

The maximum time (which does not exceed 150% of the course length) allowed for students to allowed. complete each course at satisfactory academic progress is stated below:

Course	Minimum Hours	Weeks	Maximum Hours	Weeks

Students who have not completed the course within the maximum timeframe may continue as a student at the institution on a cash pay basis.

Academic Progress Evaluations

The qualitative element used to determine academic progress is a reasonable system of grades as determined by assigned academic learning. Students are assigned academic learning and a minimum number of practical experiences. Academic learning is evaluated after each unit of study. Practical assignments are evaluated as completed and counted toward course completion only when rated as satisfactory or better (the computer system will reflect completion of the practical assignment as a 100% rating). If the performance does not meet satisfactory requirements, it is not counted and the performance must be repeated. At least two comprehensive practical skills evaluations will be conducted during the course of study. Practical skills are evaluated according to text procedures and set forth in practical skills evaluation criteria adopted by the school. Students must maintain a written grade average of 70% and pass final examinations with a 70% or better prior to graduation. Students must make up failed or missed tests and incomplete assignments.

Numerical grades are considered according to the following scale:

90%-100%

80%-89%

75%-79%

70%-74%

0%-69% Failing

Determination of Progress Status

Students meeting the minimum requirements for academics and attendance at the point of evaluation point are considered to be making satisfactory academic progress until the next scheduled evaluation. Students will receive a hard-copy of their Satisfactory Academic Progress Determination at the time of each of the evaluations. Leave of Absence Policy

A student who must take an approved Leave of Absence (LOA) or must withdraw from training will return to school in the same satisfactory academic progress status as prior to the leave of absence. A student may be granted a LOA where there is a reasonable expectation that the student will return from the LOA. The maximum time frame for a LOA is 180 calendar days. The School does not permit more than one LOA within a 12 month period.

The LOA must be requested and approved in writing prior to LOA occurring. In addition, the student is required to list the reason for the LOA and their signature on the LOA form. Emergency LOA, without prior written request, may be granted provided the student completes the LOA form and returns it to School via mail or in person within reasonable resolution of the emergency. In emergency instances, the beginning date of the LOA will be first date the student was unable to attend. A student who is granted a LOA that meets the above mentioned criteria is not considered to have withdrawn from the School and a refund calculation is not required.

On the day the student returns from a LOA the student is required to complete an enrollment agreement addendum. The student's contract and maximum time frame will be extended for the same number of days the student was on LOA without any additional institutional charges or penalty to the student.

If the student does not return from the LOA by the expiration of the approved leave of absence, the student's enrollment will be terminated. The School is required to take attendance and therefore the withdrawal date for the purpose of calculating a refund will be the student's last date of attendance. Additionally, the student's loans will go into repayment after 180 days from the last date of attendance.
